

# ANNA UNIVERSITY MIT CAMPUS, CHENNAI-44.

## DEPARTMENT OF INSTRUMENTATION ENGINEERING

URL: [www.annauniv.edu](http://www.annauniv.edu), email: [mitieau@gmail.com](mailto:mitieau@gmail.com), Ph: 044-22516035

Webinar on

### Commercialization of Laboratory Prototypes

Resource Person

## Dr. K. SANKARAN

Professor of Eminence, Anna University &  
National Networking Consultant, NHHID

Date: 10 June 2020 Time: 2.00 – 3.00 PM IST

For Free Registration to the Webinar, click here:

Zoom meeting link will be sent to all registered participants by email  
All participants will receive e-certificates through their registered email.  
For queries, contact Mobile No: 9789977989, email: [mitieau@gmail.com](mailto:mitieau@gmail.com)

**Dr. SABITHA RAMAKRISHNAN**  
Associate Professor  
Coordinator

**Dr. N. PAPP**  
Prof. & Head  
Convener

Prof. K. Sankaran

Dr. K. Sankaran is continuing his research interest in Biotechnology based instrumentation development after his retirement 3 years ago from Department of Biotechnology and other major national coordination programmes. Having successfully converted his laboratory outputs into commercial products, overcoming several challenges in an academic setup, he has put in his vast experience of creating a National Hub for Healthcare Instrumentation (NHHID) that operates beyond University boundaries to network across the nation bringing teams of scientists, engineers, medicos, industries, government and non-governmental agencies, associations and other relevant stakeholders to develop healthcare devices for country's needs. In this webinar he is sharing his experiences with these challenges and suggest ways to move forward to make India self-reliant in healthcare instrumentation.
