Students Innovations for Advancement of Research Explorations (SITARE)

BIRAC has collaborated with **SRISTI (Society for Research and Initiatives for Sustainable Technologies and Institutions)**, a non-profit organization based at Ahmadabad, Gujarat for promoting grass root level innovations at the university/college level among the students.

For this purpose, BIRAC has constituted two categories of awards:

- **BIRAC-SRISTI GYTI Awards: 15 entrepreneurial ideas** at the university level are selected from across India every year and nurtured for **2 years** in-situ with a grant of **INR 15 lakhs**.
- **BIRAC-SRISTI Appreciation Awards: 100 young innovators** are awarded **INR 1 lakh** every year to take their innovations to next level. The objective is to inculcate the sense of entrepreneurship among the young students who can be motivated to take their innovations to commercial level.

MoU with SRISTI was signed in 2015 and the awards are managed by a Project Management Unit (PMU) at SRISTI, Ahmadabad
